

Cromwell Valley Park & Marshy Point Nature Center Present: Trail Guide Training 2017

March 22, 23, & 24
(Wed. Thurs. & Fri.)

We are looking for volunteers to help teach about nature! Trail guides work with group programs, special events, and animal care. Training will familiarize you with our most popular programs, the ecology of Marshy Point & Cromwell Valley Parks, and techniques to “share more” and “teach less”.

Rachel Carson said, "It is not half so important to know, than it is to feel". And we want you to help us nurture the sense of wonder that all children have.

Each day features new subjects and techniques for enjoying the great outdoors. The final day of training includes a special ecology field trip.

March 22, at Marshy Point – What is a Naturalist? Reptiles and Amphibians. Animal Care and Handling.

March 23, at Cromwell Valley Park – Spring Planting and Mammals in Maryland.

March 24, at Hemlock Gorge – Nature Discovery and Exploration.
(To carpool, meet at Marshy Point at 9am or Cromwell Valley Park at 10am.)
*Bring a lunch and plenty to drink.

- All training runs from 10am - 1pm.
- Breakfast, snacks and coffee provided.
- New guides pay a tuition fee of \$5
- To register: Marshy Point, 410-887-2817
Cromwell Valley, 410-887-2503
