

# Cromwell Valley Park & Marshy Point Nature Center Present: Trail Guide Training 2018

**March 14, 15, & 16**  
(Wed. Thurs. & Fri.)

We are looking for volunteers to help teach about nature! Trail guides work with group programs, special events, and animal care. Training will familiarize you with our most popular programs, the ecology of Marshy Point & Cromwell Valley Parks, and techniques to “share more” and “teach less”.

Rachel Carson said, "It is not half so important to know, than it is to feel". And we want you to help us nurture the sense of wonder that all children have.

Each day features new subjects and techniques for enjoying the great outdoors. The final day of training includes a special ecology field trip.

**March 14, at Marshy Point** – What is a Naturalist? Woodlands, Wetlands and the Great Marsh. Animal Care and Handling.

**March 15, at Cromwell Valley Park** – Early Spring Plant Hike and Spring Planting with Young Children.

**March 16, at Falls of the Gunpowder & Anita C. Leight Center** – Nature Discovery and Exploration. (To carpool, meet at Marshy Point or Cromwell Valley Parks at 9:30 am.) \*Bring a lunch and plenty to drink.

- All training runs from 10am - 1pm.
- Breakfast, snacks and coffee provided.
- New guides pay a tuition fee of \$5
- To register: Marshy Point, 410-887-2817  
Cromwell Valley, 410-887-2503
