Subject: Re: Environmental Science Club- Earth Week

I know no one wants to think about going back to school but... when we get back we will be celebrating earth week so get excited! We have a lot planned, but we need everyone's help to execute a great week of celebration!

Here is what we have planned:

Monday: Bee day. We will have announcements in either the morning/afternoon about how important bees are to our environment. It would be great if some girls could hang pictures of bees with facts on them around the school

Tuesday: We will have a school-wide celebration! There will be green balloons, and a photobooth during lunch! I emailed Mrs. Kaiser asking about being able to wear green accessories, but I have not heard back (I will update you all when I do) During lunch it would be great if someone could run a table with trivia games as well.

Wednesday: No waste wednesday. Over the announcements/ posters we will spread facts about how glaciers are imperative to our environment!

Thursday: blackout day (pls remind your teachers in class if they forget!) and scavenger hunt

Friday: we will have a recycling game during lunch mods

There are plenty girls in the club, so all of these events should be well staffed! Please email me if you are able to sit at a table during lunch, or want to organize the trivia game etc. If you have any questions please don't hesitate to ask. Thank you all for your help! Can't wait for a fabulous earth week!
