

Feed our Feathered Friends!

Our Chickens, Ducks, & Turkeys here at Cromwell Valley Park are fed a nutritious blend of fortified crumble, cracked corn, and leftover produce from the Nature Center Kitchen.

Much like us Humans, they too like variety in their diets and trying new things...just as long as it's healthy!

Help provide them with some variety to their diets by stopping at the Nature Center and tossing in some of their favorites:

What to bring with you:

- A small hand shovel for digging earthworms: Chickens LOVE earthworms!
- A bagged salad

What else do they like to eat?

- Kale, they LOVE Kale! (The Ducks especially like to eat kale in their duck pond)
- Leafy Greens (lettuce, arugula, spinach, cabbage, collard greens...)
- Watermelon, a fruit favorite of the chickens!
- Pumpkin Seeds
- Berries; especially sliced strawberries
- Earthworms (Head over to the "Outdoor Classroom" and dig for some earthworms)

What they CAN'T eat:

- | | |
|--|---------------------------------------|
| <input type="checkbox"/> Bread | <input type="checkbox"/> Greasy Foods |
| <input type="checkbox"/> Junk/ Processed foods | <input type="checkbox"/> Dairy |
| <input type="checkbox"/> Citrus | <input type="checkbox"/> Raw meat |
| <input type="checkbox"/> Moldy or Rotten food | <input type="checkbox"/> Dry beans |
| <input type="checkbox"/> Chocolate or candy | <input type="checkbox"/> Raw peanuts |
| <input type="checkbox"/> Really salty foods | <input type="checkbox"/> Avocados |

Don't forget!

- Please take your trash with you!
